

Kenosha County Health

Just now

Want to know where you are, tentatively, in the line for the COVID-19 vaccine in Kenosha County? Take a look at this estimate of critical populations that we developed, using federal and state population data.

Critical Populations for Vaccine Allocation

	Limited Supply			Increased Supply	
	Health care workers and long-term care facility residents	Essential frontline workers	Adults with high-risk medical conditions Adults 65+	All other adults not included in Phase 1. People in other congregate settings not previously mentioned.	Young adults, children (if a pediatric vaccine is available), and workers in industries and occupations important to the functioning of society and at increased risk of exposure, not included in Phase 1 or 2.
	Phase 1a	Phase 1b	Phase 1c	Phase 2	Phase 3
	<p>Health Care Personnel: Health care personnel are defined as paid and unpaid persons serving in health care settings who have the potential for direct or indirect exposure to patients or infectious materials.</p> <p>This includes clinicians such as physicians, respiratory technicians, dentists and hygienists, as well as other workers such as EMS, nursing assistants, environmental services, assisted living facility staff, long-term care staff, group home care staff, and home care givers.</p> <p>Long-Term Care Facility Residents: Defined as adults who reside in facilities that provide a variety of services, including medical and personal care, to persons who are unable to live independently.</p>	<p>Phase 1b is pending ACIP recommendations; possible groups could include:</p> <p>Essential Frontline workers: Includes those workers who are essential for the functioning of society, such as police, firefighters, (including volunteer firefighters) National Guard acting in the capacity of a first responder, education sector, food & agriculture (e.g.: meat processing plant), utilities, corrections officers, transportation.</p> <p>*This includes those who must work in person, remote working is still encouraged to ensure vaccine is provided for those most at risk.</p>	<p>Phase 1c is pending ACIP recommendations; possible groups could include:</p> <p>Adults with high-risk medical conditions: Those with conditions such as obesity, diabetes, COPD, heart conditions, chronic kidney conditions, cancer, solid organ transplant, sickle cell disease, etc.</p> <p>Adults: 65 years of age and older</p>	<p>Phase 2 is pending ACIP recommendations; possible groups could include:</p> <p>Workers in industries and occupations important to the functioning of society: People at increased risk of exposure include workers in restaurants, hotels, entertainment industry, banks, libraries, hair & nail salons, barber shops, exercise facilities, factories or other goods-producing facilities.</p> <p>People with moderate comorbid conditions.</p>	<p>Phase 3 is pending ACIP recommendations; possible groups could include</p> <p>Young adults: Age 18-30.</p> <p>Children: Under the age of 18 being included in Phase 3 is dependent upon a pediatric vaccine availability.</p>
Kenosha County Estimated Population	11,000	12,500	58,000	19,500	68,000

Note: These are *estimates* developed by the Kenosha County Division of Health using data from the U.S. Census Bureau, the Job Center of Wisconsin, CDC estimates on the prevalence of serious health conditions in the U.S. across all age groups, as well as some additional data that the Division of Health had gathered previously. "ACIP" references the CDC's Advisory Committee on Immunization Practices.
