SPRING LEAF COLLECTION

Spring leaf collection runs from

April 15- May 10, 2024

Please remember that only leaves will be picked up. Do not rake rocks, sticks, brush, dog droppings or other objects into the leaf piles. They are very dangerous to workers and will clog and damage the equipment. Leaves must be raked as close to the road as possible. Do not rake leaves near mailboxes, the vacuum hose cannot reach around the posts. If you bag your leaves, the bags will not be returned.

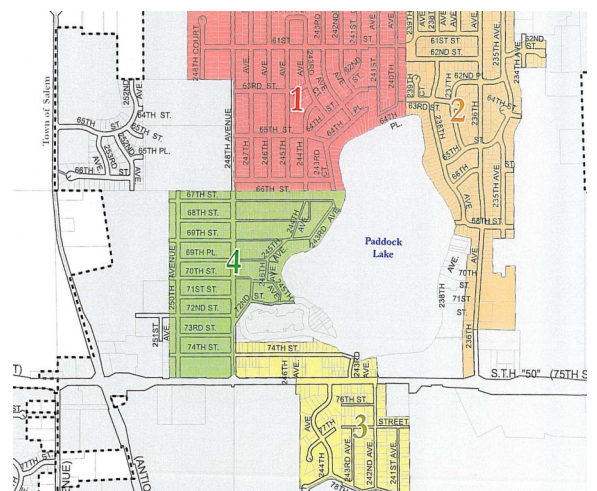

Zone 1 = Monday

Zone 2 = Wednesday

Zone 3 = Thursday

Zone 4 = Friday

To ensure pickup please place leaves roadside by 7:00 am on your scheduled day.

THE VILLAGE DOES NOT HAVE A FACEBOOK PAGE AND ARE NOT RESPONSIBLE FOR ANY CONTENT ON FACEBOOK. FOR CURRENT INFORMATION PLEASE CHECK OUR WEBSITE AT:

GOLF CARTS

The 2024 golf cart registration is in full swing. To be able to operate your golf carts legally on the village road right of way you must register your golf cart **every year** with the village. In order to register you must not owe any money to the village (outstanding taxes, unpaid sewer bills or outstanding fines) and the golf cart needs to be inspected by the Kenosha County Sheriff's Department. Please pick up a registration form at the Village Hall or you can print one from our website. The permit fee is \$50.00 and permit stickers must be displayed at all times. All drivers **MUST** be 16 years of age and possess a valid driver's license. The golf cart season runs from March 1st through the 3rd Saturday in December. The rules and regulations can be found in chapter 44 of the village code of ordinances. **ATV's and UTV's are not permitted on village streets. HAVE FUN AND BE SAFE !!!**

Water Softener Tips to help reduce chloride

Check to see how your softener is calibrated. Some softeners are preset for the highest hardness setting at the factory. This setting may be as hard as 30 grains. Reset the hardness to 20 grains. Soften only water used inside the home. Do not treat the outside hose faucets.

Check the timer. When was it last adjusted? Many of us move into a house or purchase a water softener and never check it again. Children move out or other factors come into play that affects the amount of water we use. If your softener is regulated by a timer, you may be able to increase the interval between regeneration cycles without affecting the water quality. Increase the time by one day and see if there is any effect on dish washing and laundry during the next month.
